This guide sets out the common meanings of the terms used within SFEDI Awards qualifications

#### Glossary of Qualification Terms

What is being looked for within a qualification's requirements can sometimes be difficult to understand so to help we have produced this handy guide of common terms used within our qualifications.

This guide will help you to understand the level of detail required by a learner when producing evidence to meet the assessment criteria within our qualifications.

| Term                  | Definition                                                                                                                     |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Act (as a role model) | Provide guidance through actions, behaviour, words impacting positively on others                                              |
| Actively Listen       | Concentrate fully on what is being said                                                                                        |
| Agree                 | Have the same opinion about a subject matter; concur with a point of view                                                      |
| Analyse               | Examine a subject methodically with care and attention to detail in order to explain and interpret it                          |
| Apply (standards)     | Link existing knowledge to new or different situations                                                                         |
| Apply (data)          | Link existing knowledge to new or different situations                                                                         |
| Assess                | Evaluate or estimate the nature, ability or quality of an item, subject, theory, etc.                                          |
| Be Responsive         | Show sensitivity to people, events, subjects, theories or take actions to support people, events, subjects, theories           |
| Calculate             | Determine the amount or number of something or determine by reasoning, experience or common sense                              |
| Carry Out             | Complete a task or an activity                                                                                                 |
| Clarify               | Create less confusion or make a subject or theory more comprehensible                                                          |
| Classify              | Arrange a group of people, items, theories, subjects in classes or categories according to shared qualities or characteristics |
| Collate               | Collect and combine texts, information, data                                                                                   |
| Communicate           | Exchange, pass on or share information, news or ideas to another person or group of people                                     |

| Compare                 | Estimate, measure or note the similarities and differences between items, subjects, theories, people                                                                                      |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Compare and<br>Contrast | Estimate, measure or note the similarities between items,<br>subjects, theories, people (compare) and to look for the<br>differences between items, subjects, theories, people (contrast) |
| Compile                 | Produce a list by assembling information collected from other sources                                                                                                                     |
| Complete                | Finish making or doing by having all the necessary or appropriate parts                                                                                                                   |
| Collaborate             | Work jointly with others on an activity or project                                                                                                                                        |
| Conduct                 | Organise and carry out an activity or project                                                                                                                                             |
| Consider                | Think carefully about a subject before making a decision                                                                                                                                  |
| Contrast                | Estimate, measure or note the differences between items, subjects, theories, people                                                                                                       |
| Contribute to           | Provide ideas or opinions about a subject, theory, situation                                                                                                                              |
| Co-ordinate             | Bring different elements into a harmonious order                                                                                                                                          |
| Critically Analyse      | Examine a subject methodically with care and attention to detail<br>in order to explain and interpret it and present a subjective<br>opinion or evaluation of the subject                 |
| Critically Assess       | Make a judgment based on careful consideration of the evidence<br>for and against something and present a subjective opinion or<br>evaluation of the subject                              |
| Critically Compare      | Estimate, measure or note the similarities and differences<br>between items, subjects, theories, people and present a<br>subjective opinion or evaluation of the subject                  |
| Critically Evaluate     | Make a judgment based on careful consideration of the evidence<br>for and against something and present a subjective opinion or<br>evaluation of the subject                              |
| Define                  | The precise meaning of a term, word or phrase                                                                                                                                             |
| Demonstrate             | Show how making use of examples to illustrate                                                                                                                                             |
| Describe                | ldentify and explain the features of an item, subject, theory, people                                                                                                                     |
|                         |                                                                                                                                                                                           |

| Design                      | Decide on the structure of an activity, process, item                                                                                          |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Detail                      | Provide full listing with all relevant information                                                                                             |
| Develop                     | Build on a topic or activity providing further detail                                                                                          |
| Diagnose                    | Make use of evidence in order to identify the cause of a situation                                                                             |
| Differentiate               | Identify the differences between at least two subjects, theories, people, situations, items                                                    |
| Discuss                     | Explain a subject, theory presenting both sides of an issue and, where appropriate, take a position and explore the implications               |
| Distinguish between         | Identify the differences between multiple items, subjects, theories, people especially where confusion is a possibility                        |
| Draw Conclusions<br>(which) | Identify outcomes which could lead to recommendations                                                                                          |
| Elaborate                   | Provide a full answer exploring the issues and justifying any conclusions                                                                      |
| Empower                     | Enable or permit people to undertake activities                                                                                                |
| Enable                      | Empower, aid, support or help people to make decisions or take part in processes or undertake tasks                                            |
| Encourage                   | Support people to achieve tasks, activities                                                                                                    |
| Engage                      | Work with others to complete activities or complete activities to provide information or solutions                                             |
| Establish                   | Secure acceptance for or agreement of or come to an understanding with                                                                         |
| Estimate                    | Provide an approximate decision or opinion of a subject, theory making use of prior knowledge or experience                                    |
| Evaluate                    | Evaluate or estimate the nature, ability or quality of an item, subject, theory, etc.                                                          |
| Examine                     | Consider something in detail establishing the key facts and important issues surrounding a topic                                               |
| Explain                     | Provide clarity to a topic giving an account as to how and why it<br>occurs or what is meant by the use of the term in a particular<br>context |

| Explore                             | Make use of a questioning approach to a topic considering a variety of view points                                         |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Extrapolate                         | Select and identify the main points of a subject, theory                                                                   |
| Facilitate                          | Assist or enable                                                                                                           |
|                                     |                                                                                                                            |
| Formulate                           | Pull together information in order to reach a conclusion                                                                   |
| Generate                            | Produce a                                                                                                                  |
| Give (an example of)                | Provide relevant examples relating to a subject, theory                                                                    |
| Give (positive and negative points) | Provide information to show the advantages and disadvantages of the subject, theory, people, situation, item               |
| Give Constructive<br>Feedback       | Support the improvement of people, situations, activities, working practices by providing thought through opinion          |
| Give reasons                        | Provide information to explain a justification or view point                                                               |
| Give ways                           | Provide information about how to support the subject, theory                                                               |
| ldentify                            | Highlight the key points to be addressed                                                                                   |
| Illustrate                          | Provide examples to aid a discussion in order to make something clear or to explain something                              |
| Implement                           | To action a plan, put in place a series of activities                                                                      |
| Indicate                            | Use words, illustrations or diagrams to point out an area of interest, subject, theory without providing additional detail |
| Initiate                            | Begin a process, activity                                                                                                  |
| Interact                            | Work with people, items, objects or create a working relationship with people, items, objects                              |
| Interpret                           | Provide an explanation of                                                                                                  |
| Intervene effectively               | Become involved with people in order to effectively influence their actions or activities                                  |

| Investigate | Examine a subject, theory                                                                                                                                                                                                        |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Judgement   | Use evidence to reach a decision                                                                                                                                                                                                 |
| Justify     | Provide evidence to support a view presenting a balanced argument before stating a final opinion                                                                                                                                 |
| Label       | Provide the correct term for the subject, theory, object, activity                                                                                                                                                               |
| List        | A list of words, statements or comments                                                                                                                                                                                          |
| Listen      | Hear what has been presented                                                                                                                                                                                                     |
| Locate      | Find, identify or indicate the location of                                                                                                                                                                                       |
| Maintain    | Keep a situation, subject, object in a consistent state or condition                                                                                                                                                             |
| Make        | Construct, produce                                                                                                                                                                                                               |
| Manage      | Be able to deal with                                                                                                                                                                                                             |
| Measure     | Determine the size, amount by measurement                                                                                                                                                                                        |
| Mentor      | Provide an outside perspective through listening to the issues<br>that may be causing concern and provide help by sharing own<br>experiences of both failures and successes providing friendly,<br>unbiased support and guidance |
| Monitor     | Observe the progress of activities, situations, people                                                                                                                                                                           |
| Name        | Provide the correct term for the subject, theory, object, activity                                                                                                                                                               |
| Negotiate   | Reach agreement with another person                                                                                                                                                                                              |
| Observe     | Watch a situation, person, item, object                                                                                                                                                                                          |
| Order       | Arrange in a logical, often sequential, way                                                                                                                                                                                      |

| Organise           | Put items, situations, theories, subjects into a structured order                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Outline            | Provide the main points of a topic without providing detail                                                                     |
| Perform            | Carry out or do an action or task                                                                                               |
| Plan               | Organise information in a logical manner and forward think a situation or series of activities                                  |
| Predict            | Using evidence to foresee a situation, event, conclusion                                                                        |
| Prepare            | Get ready                                                                                                                       |
| Present            | Put forward, exhibit                                                                                                            |
| Produce            | Make, create, bring or find                                                                                                     |
| Promote            | Support or actively encourage                                                                                                   |
| Propose            | Put forward information, plan of activities for the consideration of others                                                     |
| Protect            | Keep safe                                                                                                                       |
| Provide            | Make available information, products, objects, people                                                                           |
| Recognise          | Acknowledge the validity of                                                                                                     |
| Recommend          | Present a rational and well evidenced point of view to endorse a way of working, activities, situation, theory, subject, people |
| Record             | Maintain an accurate account of situations, activities, comments in writing or through other appropriate means                  |
| Reflect on         | Consider actions, experiences, learning and how these can promote self development or future activities, decisions              |
| Report             | Present information in a formal manner                                                                                          |
| Represent views of | Provide the views of others                                                                                                     |

| Research         | Conduct an investigation into a subject, situation, theory                                               |
|------------------|----------------------------------------------------------------------------------------------------------|
| Respect          | Have a high regard for                                                                                   |
| Respond to       | Reply in writing, verbally, through actions or diagrams                                                  |
| Resolve          | Enact a solution to a situation                                                                          |
| Review           | Look thoroughly into a topic with critical assessment, not just a descriptive approach                   |
| Revise           | Make revisions to improve or clarify a subject, theory                                                   |
| Secure           | Make safe, obtain information, product, items                                                            |
| Select and apply | Reach an informed decision and put in place the activities, recommendations to support the decision      |
| Set objectives   | Identify the outcomes required                                                                           |
| Share            | Provide information, resources to others                                                                 |
| Show             | Give or demonstrate information or knowledge                                                             |
| Solve            | Find an answer to a challenge, problem, situation                                                        |
| State            | Use clear language to present the main points of a topic without including detail or complex terminology |
| Suggest          | Put forward ideas on ways of working or undertaking an activity                                          |
| Summarise        | Present the main points of a topic in a condensed manner                                                 |
| Supervise        | Oversee the work, product, performance of others                                                         |
| Support          | Encourage people or provide credibility to people, subject, theory, activities                           |
| Trace            | Present events or stages of a process in order                                                           |

| Triangulate         | Confirm validity through three pieces of information, evidence                                       |
|---------------------|------------------------------------------------------------------------------------------------------|
| Understand          | Comprehend information, subject, situation, theory                                                   |
| Undertake           | Make an agreement to complete activities, take part in a situation                                   |
| Use                 | Apply knowledge to demonstrate understanding of a subject, theory, topic                             |
| Use (a range of)    | Apply knowledge from multiple sources to demonstrate understanding of a subject, theory, topic       |
| Work                | Engage with others to complete activities or complete activities to provide information or solutions |
| Work in partnership | Conduct activities, work practices with two or more people                                           |
